Subject: Notice of sampling
Date: Monday, May 20, 2019 4:05:40 PM

Thank you Carolyn. Based on collective availability, we have scheduled the PCB floor sampling work for Saturday, June 8.

Please let me know if Sebastian (or another EPA representative) would like to attend.

Best,

Craig

No, we don't need the 3 week notice, just as soon as you schedule it please.

Thanks

Carolyn

Hi Carolyn – This email may have slipped through the cracks earlier this week.

Are we able to schedule the PCB floor sampling inside of three weeks, or do you require the full three weeks' notice?

Thanks

Craig

Thanks Carolyn – and congratulations again on your retirement. Enjoy. I hope you don't miss us too much.

Further to your question – we can make ourselves available for a conference call on Wednesday, May 29. Does 11:00 AM work for you?

And with respect to the PCB sampling – do you still need three weeks advance notice for that, or could we move forward sooner? Please let me know.

Thanks very much.

Regards,

Craig

Subject: RE: Risk Assessment and PCB sampling comments

Thank you for the revised figure and table for the PCB sampling in bldg. 100, via email dated May 7, 2019. There are no further comments and the sampling should begin as soon as possible in consideration of providing Sebastian Rodriguez and all, the appropriate notice. In accordance with Section IX. Paragraph 17.g., could you please update the schedule and submit it within 14 days, or May 28, 2019.

I am again requesting copies of all of the Material Data Safety Sheets for American Schoen. I have only received one for the Tru-Fit Shank Material containing Di-2-Propenyl 1,2-Benzenedirboxylate Diallyl Phthalate and Dicumyl Peroxide

Finally, Since May 30th will be my last day, we would like to schedule a conf call with you all and the EPA's new project manager for introductions and an update. Preferably the 29th of May.

Thank you,

Carolyn
